

ADMISSIONS REQUIREMENTS – GRADUATE

Academic Year 2025-2026

MSc in New Food Product & Business Development

- A. Students holding a BSc degree or equivalent in one of the following fields are eligible for the MSc in New Food Product & Business Development:

- Food Science or related
- Food Technology or related
- General Agriculture with specialization Food Science and/or Technology

Applicants with other relevant BSc degrees (such as Nutrition, Chemical Engineering, Biology, Biotechnology, Public Health, Veterinary etc.) may be considered for admission on the basis of their undergraduate program curriculum. The admissions committee will review every application on an individual basis and may request that additional courses be completed.

- B. To be considered for admission, candidates are also required to either hold a recent minimum TOEFL score of 75 (IBT), or minimum of IELTS score of 6.0 (or equivalent), unless their Bachelor degree has been awarded from an English-speaking institution or the candidate is a native English speaker. All students with no formal or evidence of English language skills are offered the option to take the OPT placement test, computer based and taken on the premises of Perrotis College. Successful achievement of C1/C2 level in all components (min score: 81), Use of English and Listening, and overall grade of C1/C2, meets the English Language Requirements for entry into the MSc programs.

- C. Professional experience is desirable but not required.
